

## Innovative Technologies... enabling your business to stay ahead...

### JUPITER™ SYSTEM

#### The JUPITER™ System

Latest generation of Multi-Beam High Throughput Satellite system. The underlying technology is the powerful JUPITER System on a Chip (SoC), a custom-designed microprocessor employing a multi-core architecture and enabling the Jupiter family of VSATs to unleash the fastest ever speeds experienced anywhere in India.

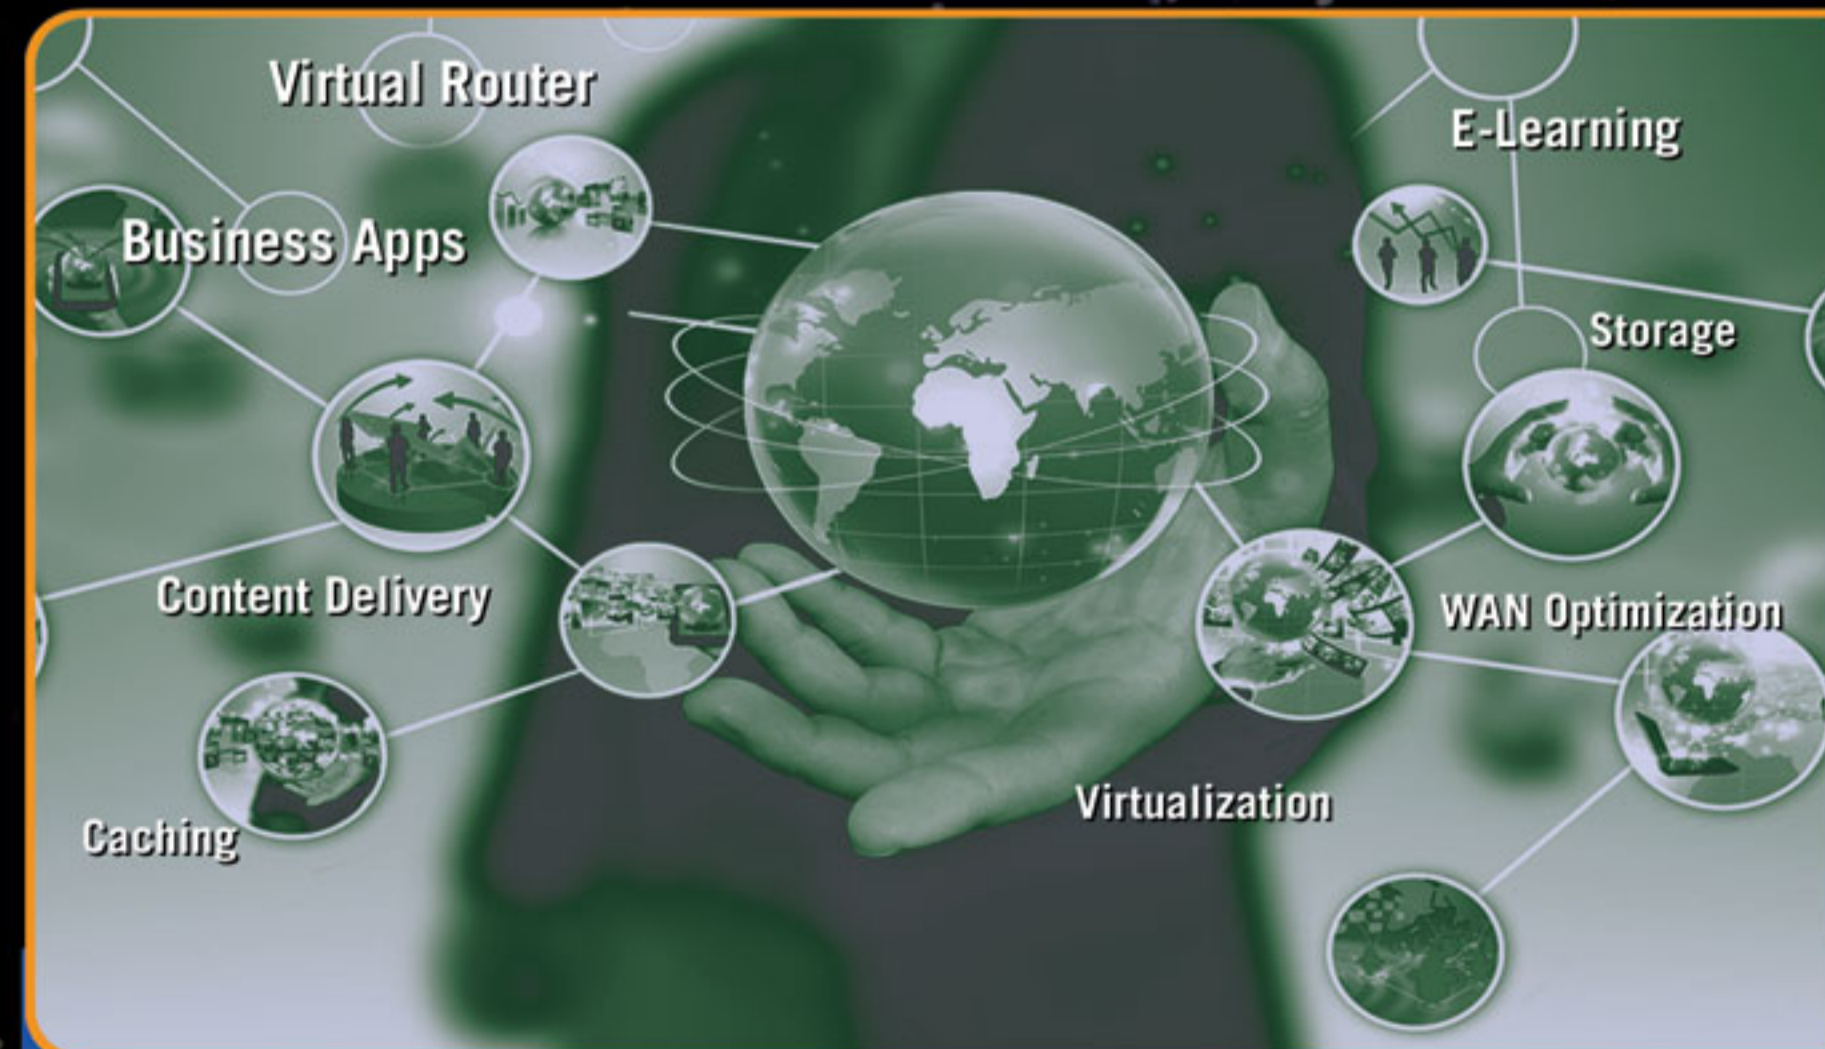

Now connect your pan India networks seamlessly
